

******* Water Service Line Inspections *******

Jefferson County WCID #10 staff starting April 1, 2023 will be investigating service lines on customers private property (water meter to house), to evaluate corrosion control & determine materials installed. This will be an ongoing project required by the EPA for all municipalities.

EPA Lead Copper Regulatory Requirement published February 2021

If you have questions, please call the office at (409) 722-6922.
